How to Advertise Your Events: We have included **4 example pictures** to show how easily you can advertise bingo nights or other venue events. To set up your own images:

1. **Copy the example pictures** into the "Pictures" folder on your computer. The app will automatically detect them and display them in either random or numerical order.
2. **To display your own images**, simply match the dimensions of our example files (to avoid blank spaces around the edges) and name them using the exact same sequential numbering format.
3. You can add hundreds of your own pictures, provided they follow this sequential naming convention.
